2. All minerals in the lands, together with the right of the United States through its authorized agents, representatives or lessees at any time to enter upon the lands and prospect for, mine and remove such minerals insofar as such right does not interfere with the development, operation, and maintenance of the airport as determined by the Secretary of the Interior and the Administrator of the Federal Aviation Administration; and

SUBJECT TO:

Patent Number 02-2002-0004

Page 2 of 4

1. Those rights for an oil and gas pipeline granted to El Paso Natural Gas Company, its successors or assigns, by right-of-way No. AZA 4521, pursuant to the Act of February 25, 1920, as amended (30 U.S.C. 185), and
2. Those rights for an oil and gas pipeline granted to El Paso Natural Gas Company, its successors or assigns, by right-of-way No. AZPHX 079873, pursuant to the Act of February 25, 1920, as amended (30 U.S.C. 185).

By the acceptance of this patent, the Patentee agrees to itself, its assigns, and its successors in interest to the property interest herein conveyed, or any part thereof, that the covenants set forth below shall attach to and run with the land:

1. The Patentee will use the property interest for airport purposes, and will develop that interest for airport purposes within one to five years after the date of this conveyance, except that if the property interest is necessary to meet future development of an airport in accordance with National Plan of Integrated Airports System (NPIAS) the Patentee will develop that interest for airport purposes on or before the period provided in the plan or within a period satisfactory to the Administrator of the Federal Aviation Administration and any interim use of that interest for other than airport purposes will be subject to such terms and conditions as the Administrator may prescribe.
2. The airport runway system and its appurtenant safety areas, and all buildings and facilities, will be operated for public airport purposes on fair and reasonable terms without unjust economic discrimination; or on the basis of race, color, or national origin, as to airport employment practices, and as to accommodations, services, facilities, or other public uses of the airport.
3. The Patentee will not grant or permit any exclusive right forbidden by Section 308(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1349 (a), as amended), at the airport or at any other airport now owned or controlled by it.
4. No person shall be excluded from any participation, be denied any benefits, or be otherwise subjected to any discrimination on the grounds of race, color, national origin, or disability.
5. The Patentee will comply with all requirements imposed by or pursuant to Part 21 of the Regulations of the Office of the Secretary of Transportation (49 CFR 21) - nondiscrimination in federally assisted programs of the Department of Transportation - effectuation of Title VI of the Civil Rights Act of 1964.

Patent Number 02-2002-0004

6. In furtherance of the policy of the Federal Aviation Administration under covenant, the Patentee:
- a. Agrees that, unless authorized by the Administrator, it will not, either directly or indirectly, grant or permit any person, firm or corporation the exclusive right at the airport, or at any other airport now owned or controlled by it, to conduct any aeronautical activities, including, but not limited to, charter flights, pilot training, aircraft rental and sightseeing, aerial photography, crop dusting, aerial advertising and surveying, air carrier operations, aircraft sales and services, sale of aviation petroleum products whether or not conducted in conjunction with other activities which because of their direct relationship to the operation of aircraft can be regarded as an aeronautical activity;
 - b. Agrees that it will terminate any existing exclusive right to engage in the sale of gasoline or oil, or both, granted before July 17, 1962, at such an airport, at the earliest renewal, cancellation, or expiration date applicable to the agreement that established the exclusive right; and
 - c. Agrees that it will terminate forthwith any other exclusive right to conduct any aeronautical activity now existing at such an airport.
7. Any later transfer of the property interest conveyed will be subject to the covenants and conditions in this patent.
8. If the covenant to develop the property interest (or any part thereof) for airport purposes within one year after the date of this patent is breached, or if the property interest (or any part thereof) is not used in a manner consistent with terms of the patent, the Administrator may give notice to the Patentee requiring him to take specified action towards development within a fixed period. These notices may be issued repeatedly, and outstanding notices may be amended or supplemented. Upon expiration of period so fixed without completion by the Patentee of the required action, the Administrator may, on behalf of the United States, enter, and take title to, the property interest conveyed or the particular part of the interest to which the breach relates.
9. If any covenant or condition in this patent, other than the covenant contained in paragraph 7 of this section, is breached, the Administrator may, on behalf of the United States, immediately enter, and take title to, the property interest conveyed or, in his discretion, that part of that interest to which the breach relates.

Page 4 of 4

10. A determination by the Administrator that one of the foregoing covenants has been breached is conclusive of the facts; and that, if the right entry and possession of title stipulated in the foregoing covenants is exercised, the Patentee will, upon demand of the Administrator, take any action (including prosecution of suit or executing of instruments) that may be necessary to evidence transfer to the United States of title to the property interest conveyed, or in the Administrator's discretion, to that part interest to which the breach relates.
